Superintendent's Highlights

Gooding schools continue to provide staff in-service and curriculum development activities with the chief purpose of alignments, use of assessments to improve instruction, and increase learning and test scores. The J.A. & Kathryn Albertson Foundation continues to play an important role in Gooding's efforts.

A 21st Century Grant has been awarded to Gooding schools for nearly \$3 million over a three-year period. Beginning in the fall of 2000, major changes will be occurring which open the schools to students and the community in after school and summer programs. Tutoring for remediation and help by mentors to assist in reaching academic goals, longer hours for computer labs and the library, many enrichment activities, additional bussing, and a goal of making the school a center for community learning are some of the funded activities.

Progress Towards Meeting District Goals

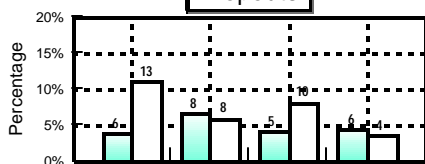

1999-00 Goals	Progress
Strategic Plan development and implementation:	A 3-5 year strategic plan, involving staff, board, community, and employers, has given new emphasis to K-12 basic skill instruction. Alignment of curriculum in math and reading/language arts has been completed with science near completion. K-3 Idaho Reading Initiative with phonics emphasis, 3-5 math leveling, K-8 accelerated reader program, K-12 accelerated math program, and district-wide staff development activities have been begun with increases in test scores at K-8 levels. Additional staff training is planned.
Improve student grading, attendance, and homework procedures:	Policies on homework and grading have been revised. A new computerized student attendance and grading system has been installed.
A program for students with increasingly severe behavior difficulties needs to be found:	A self-contained day treatment program will begin in the fall of 2000 and is included in the M&O Budget.
